Menu of Services

SilkPeel Microdermabrasion:

Microdermabrasion is taken to the next level with SilkPeel technology. This device combines diamond-tip microdermabrasion with dermal infusion, delivering potent topical serums into the skin, down to the level of the pores. This one-of-a-kind procedure can reduce acne, brighten skin, treat hyperpigmentation, and promote new collagen growth for better skin texture and overall skin health. Our aesthetician will select the appropriate serum for your skin care concerns.

- \$175/Single Treatment
- \$472.50/Package of Three

Chemical Peels:

Optimal results obtained in a series of three

Vi Peels:

Vi Peels represent the next generation in chemical peels. Each treatment is virtually pain free with dramatic results after one peel. Vi Peels are suitable for various skin types, including darker skin tones. They offer specifically designed treatments that are targeted to address: anti-aging, hyper-pigmentation, sun spots, acne prone skin and acne scarring. The Vi Peel also provides you with a take home kit of essential products for your treatment's success.

- \$325/Single Treatment
- \$877.50/Package of Three

Jessner's Peel:

Jessner's solution includes salicylic acid and lactic acid; this combination of alpha and beta hydroxy acid allows for simultaneous treatment of multiple skin conditions, including acne, congested pores, oily skin and hyper-pigmentation. Jessner's Peels are ideal for patients who are concerned about both acne and discoloration or scarring from acne, and are safe for all skin tones.

- \$175 & Up/Single Treatment
- \$472 & Up/Package of Three

Glycolic Peel:

Glycolic acid is an alpha-hydroxy acid and a gold standard agent in chemical peels. These are superficial to medium depth peels that exfoliate the skin and treat fine lines, acne and hyperpigmentation.

- \$150/Single Treatment
- \$405/Package of Three

Glytone Lip & Eye Peel:

This peel specifically targets the delicate skin of the lip and eye area. and improves fine lines, uneven skin texture and sun damage. This peel should be performed every two weeks for optimal results.

- \$150/Single Treatment
- \$405/Package of Three

PCA Peels:

These blended TSA or Jessner peels are designed for more resilient skin types, and treat fine lines, hyper-pigmentation, acne scarring, photo-damage and uneven surface texture.

- \$175/Single Treatment
- \$472.50/Package of Three

Dermaplaning:

Dermaplaning is a specialized technique that utilizes a surgical blade to painlessly remove the most superficial layer of epidermal skin. In addition to exfoliation, this procedure also removes fine vellus hair on the skin (peach fuzz). A single treatment can remove up to three weeks of unhealthy build-up on the skin. Dermaplaning allows products to penetrate deeper into the skin, enhancing their effectiveness. Skin appears softer, smoother and more even toned after treatment. A chemical peel or SilkPeel Microdermabrasion may be added to enhance results.

- \$125/Single Treatment
- \$337.50/Package of Three

Dermaplaning + Peel or SilkPeel

- \$225/Single Treatment
- \$607.50/Package of Three

Medical Facials

The D&A Medical Facial (90 minutes):

This is a customized facial designed to treat and correct your specific skin care concerns. After a detailed skin analysis is performed, this treatment starts with a meticulous double cleanse followed by exfoliation through dermaplaning, and ends with your chosen light chemical peel or SilkPeel Microdermabrasion. Gentle extractions may be done if needed. Sunscreen with SPF is applied after the facial is complete.

- \$250/Single Treatment

The D&A Maintenance Facial (60 minutes):

A facial designed to promote and maintain healthy skin, this treatment includes skin analysis, thorough cleansing, exfoliation through an ultrasonic scrubber, gentle extractions, therapeutic treatment mask and lymphatic massage. Serum and sunscreen with SPF are applied after the facial is complete

- \$200/Single Treatment

The L.E.D Facial (90 Minutes):

This unique, 90 minute facial treats both acne and anti-aging concerns. Each treatment involves a double cleanse w/ steam, SilkPeel Microdermabrasion, therapeutic mask and the appropriate medical grade L.E.D. light therapy.

- \$300/Single Treatment

Spa Facial with Dermaplaning (60 Minutes):

Customized facial designed to treat and correct your specific skin care concerns. After a detailed skin analysis is performed, the treatment starts with a meticulous double cleanse, followed by exfoliations through dermaplaning and ends with your choice of a light chemical peel or therapeutic face mask.

- \$225/Single Treatment

Gentleman's Facial (60 minutes):

This treatment reverses damage and stress caused by environmental factors and shaving. The facial starts with an exfoliating cleanse and gentle extractions, SilkPeel Microdermabrasion is performed, followed by application of a purifying mask and lymphatic massage. Moisturizer is applied at the end of the facial to soothe and hydrate the skin.

- \$225/Single Treatment

The Detox Pore Clarifying Treatment (75 minutes):

This exfoliating facial is an excellent choice for all skin types. After a double cleanse with an ultrasonic scrubber, SilkPeel Microdermabrasion is performed, followed by detox gel with steam to dissolve debris, soften blackheads, kill bacteria, and reduce inflammation. Gentle extractions are performed if needed, followed by a charcoal mask. Skin clarity and texture are improved with this facial.

- \$250/Single Treatment

Medical Facials (cont.)

Anti-Aging/Vitamin C Facial (60 minutes):

Reduce the signs of aging and environmental stress with this facial. Treatment starts with a thorough cleansing, followed by 2 passes of SilkPeel Vitamin C Dermal Infusion, and finished with application of a mask containing antioxidants and growth factors to promote collagen development. Gentle extractions are performed if needed. Warm hand mitts envelop hands at the beginning of the treatment and upper body massage is performed at the end of the treatment. This treatment corrects free radical damage and improves skin tone and texture.

- \$250/Single Treatment

Mother To Be Facial (60 minutes):

This gentle, safe and effective facial nourishes and rejuvenates the skin during pregnancy. Treatment starts with thorough cleansing, mild exfoliation, SilkPeel Microdermabrasion, and extractions if needed, followed by application of a calming mask or light glycolic peel to restore glow and radiance to the skin. Upper body and hand massage included in treatment.

- \$225/Single Treatment

PCA Smoothing Body Peel:

This body peel is a combination of TCA, lactic acid and salicylic acids. It can be applied to the arms, chest, heels, feet and legs and is an ideal choice for treating keratosis pilaris and rough, dry skin.

- \$175 & Up/Single Treatment

InnoPen Microneedling Treatments:

Microneedling is used to improve irregularities in skin texture such as scars, stretch marks, fine lines and wrinkles. This procedure stimulates the production of new collagen and can be used on all skin tones. Microneedling can be performed with PRP (platelet-rich plasma) or Hyaluronic Acid/Growth Factor Serum. Patients typically return to their regular social activities and skin care products within 2 days after treatment.

- 350/Single Treatment w/Hyaluronic Acid/Growth Factor Serum
- \$945/Package of Three
- \$650/Single Treatment w/PRP
- \$1800/Package of Three

The Spa at D&A offers clinical skincare in a spa-like setting.

Customized Bridal and Special Occasion skincare packages are available. We will exclusively create packages starting six months, three months and/or one month prior to your big event.

All treatments are performed by a licensed aesthetician and overseen by a board-certified dermatologist.

Spa is open daily: Evening and Saturday appointments available. Call for details.
